

DP63 series high performance electric airless sprayers

High power PM DC motor with plastic cover
Enclosed design protects motor components from dirt, dust and overspray to extend motor life

Reliable electronic Pressure Control delivers a consistent spray fan without pressure fluctuation at all spraying pressures

Mechanical pressure control durable and reliable use

EPC board

High Sensitive fuse
Provides more protection

Oil filler cap

Oil level window

Semi-auto Oiler
The oil reservoir delivers oil to piston v-packings with the push of a button

High Flow Prime/Spray Valve

Large Drip Cup

Stainless steel fluid section is durable, lightweight and rust proof; could be used for both water-based and also oil-based paint.
Also, Innovation design makes it easy for putting/removing siphon swivel into/from lower inlet housing

Disassemble the fluid pump quickly by this fixing bolt. Make your repairing jobs in high efficiency

Alloy Piston Rod is processed with high level grinding techniques for longer life and better durability

V-packings without O-ring more durable

Standard Inclusions:

Cord Wrap
Quick easy storage

Four-feet stand
With more durable and stable
